Main Street (CSAH 14) between Thrush and Crane Streets is now open

Andover, MN – Main Street (CSAH 14) between Thrush and Crane Streets in Coon Rapids opened to traffic Wednesday, July 20. This section of road was closed for reconstruction since June 2010. This project will help to improve safety and mobility along the corridor.

Key components of this project included widening Main Street to four lanes, widening shoulders, adding a center median and dedicated turn lanes, replacing and optimizing existing traffic signals, and replacing the existing land bridge which spanned poor and unstable soil.

A paved pedestrian trail was added to the south side of the road, along with noise and retaining walls.
